

ESUP Symposium, jointly organized with ESUR and European Society of Pathology Urothology Working Group (ESUP)

Noadjuvant Therapy in Bladder Cancer: towards a personalized approach

Amsterdam, The Netherlands, 8 November 2018

Chairs: Urologist - Alberto Briganti, Milan (IT)
Pathologist - Rodolfo Montironi, Ancona (IT)
Pathologist - Antonio Lopez-Beltran, Lisbon (PT)
Urologist - Hein Van Poppel, Leuven (BE)
Urological researcher - Kerstin Junker, Homburg (DE)

14.30 – 14.35 Introduction

Urologist - Hein Van Poppel, Leuven (BE)

14.35 – 15.00 Update on bladder cancer treatments

Medical oncologist - Susanne Osanto, Leiden (NL)

15.00 – 15.25 Sampling and reporting of bladder cancer specimens following neoadjuvant therapy

Pathologist - Maurizio Colecchia, Milan (IT)

15.25 – 15.50 Changes in the bladder following treatments for non-muscle invasive bladder cancer

Pathologist - Antonio Lopez-Beltran, Lisbon (PT)

15.50 – 16.15 Changes in the bladder following treatments for muscle invasive bladder cancer

Pathologist - Rodolfo Montironi, Ancona (IT)

16.15 – 16.40 Role of checkpoint inhibition in bladder cancer

Medical oncologist - Andrea Necchi, Milan (IT)

16.40 – 17.05 Biomarkers for selection of patients for response to neoadjuvant Therapy

Urological researcher - Kerstin Junker, Homburg (DE)

17.05 – 17.30 Discussion and conclusions

Urologist - Alberto Briganti, Milan (IT)
